

# *Butterfly Intro*

A stylized illustration of a butterfly with blue, yellow, and white wings, positioned between the words 'Butterfly' and 'Intro' in the main title.

蝴蝶的自白

An illustration of a person's profile in a traditional ink-wash style, with a butterfly and pink flowers integrated into the design. The butterfly is on the right, and the flowers are on the left, both appearing to be part of the person's form or the surrounding environment.

## 【Classroom Sentences】

👋 You are allowed to answer questions in Chinese in this class, but **try to ask for help in English!**

Ask for help. <b>Could you help me?</b>  你可以幫我嗎？	Ask for help <b>Could you tell me .....?</b>  你可以告訴我.....嗎？	When someone speaks too fast. <b>Could you say that more slowly, please?</b>  可以請你說慢一點嗎？
When you don't understand. <b>Could you say that again?</b>  你可以再說一次嗎？	Ask to check the answer. <b>Could you check this for me?</b>  可以幫我核對這個嗎？	When you need something. <b>May I have .....?</b>  可以給我.....嗎？
Ask to spell a word. <b>How do you spell .....?</b>  ..... (單字) 怎麼拼？	Ask to pronounce a word. <b>How do you pronounce this word?</b>  這個單字怎麼發音？	When you don't know how to do. <b>I don't know how to .....</b>  我不知道該如何.....

👉 The teacher will give you a stamp after using these sentences.

👋 If you need any help, please raise your hand! The teacher will help you as soon as possible. 😊

# Butterfly Anatomy

蝴蝶的構造

# Butterfly Anatomy

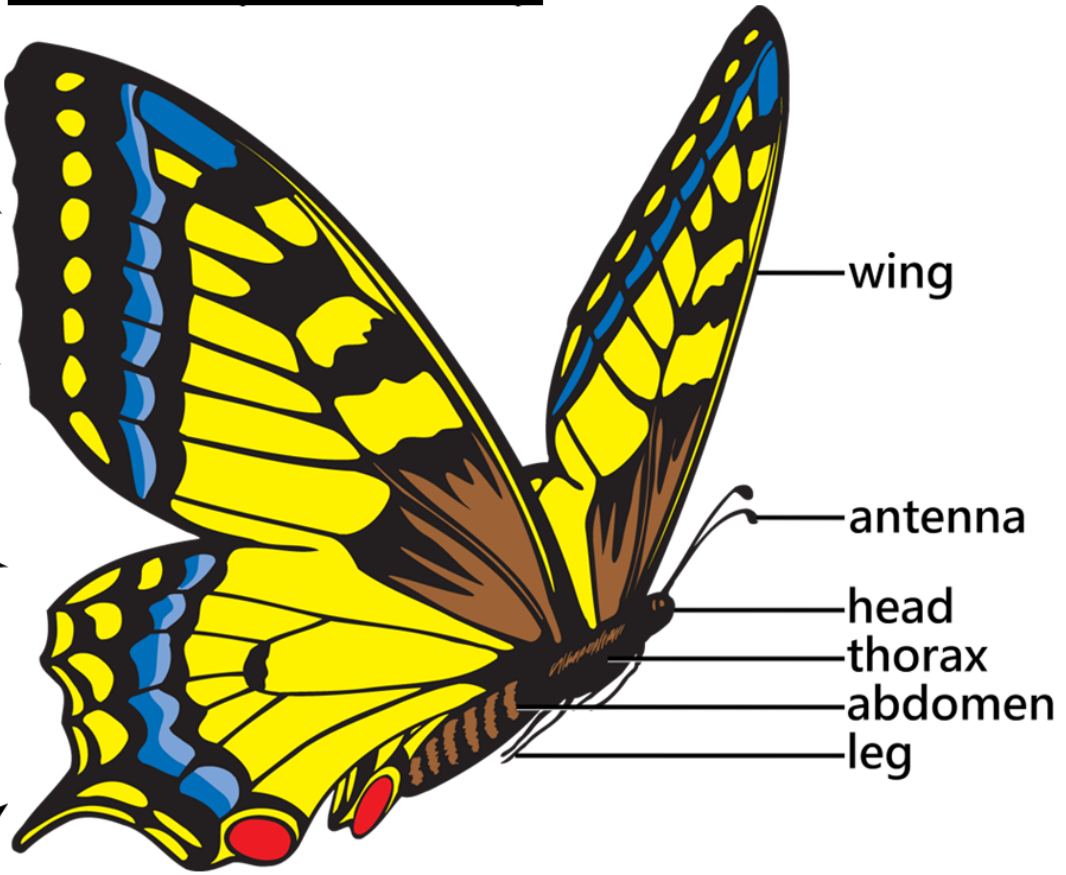

I can fly with my four  
wings. And there  
are so many scales on  
my wings.

I can smell with  
my antenna.

I can stand and walk  
with my six legs.

My body is divided into  
three parts:

1. head
2. thorax
3. abdomen

# Life cycle of a Butterfly

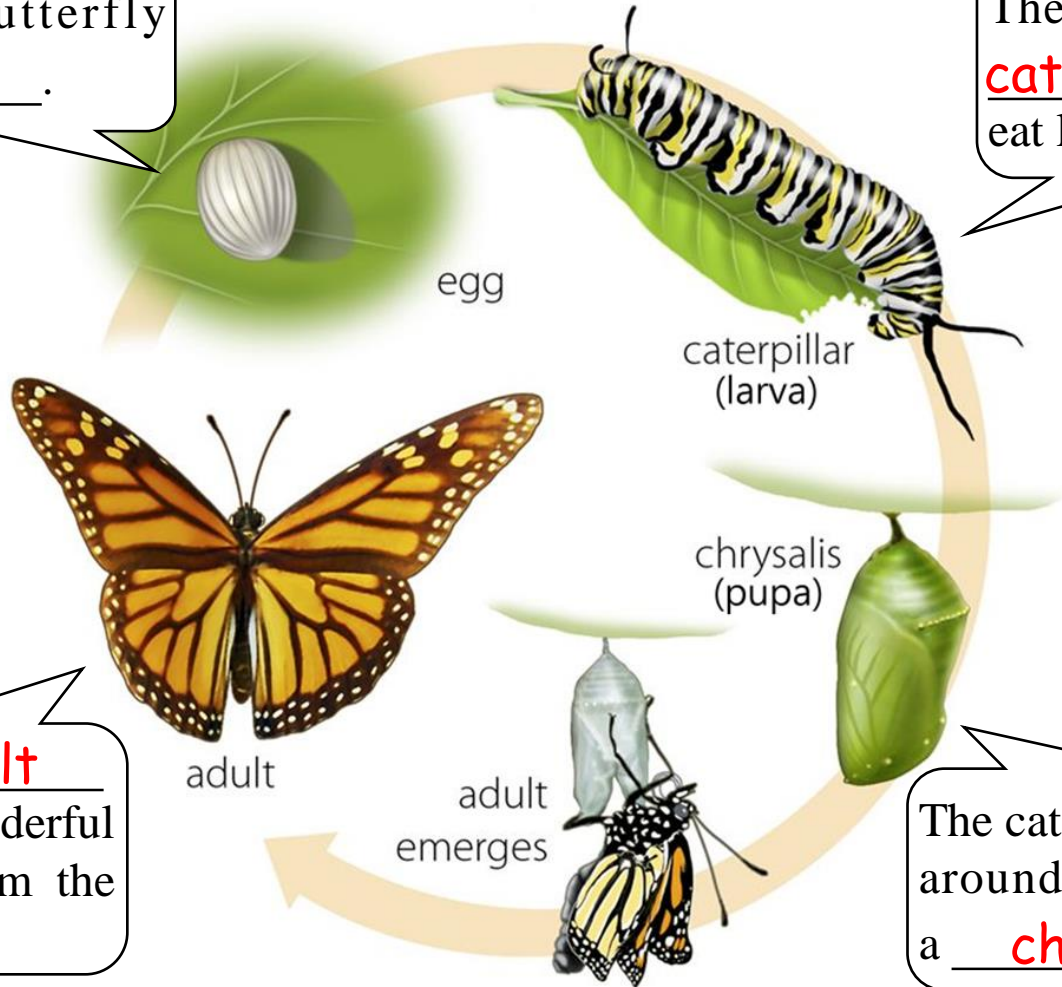

蝴蝶的生活史

# Life Cycle of a Butterfly

A female butterfly lays eggs.

The egg becomes a caterpillar. It will eat lots of vegetation.

A colorful adult butterfly with wonderful wings emerges from the chrysalis.

The caterpillar forms a house around itself. It is called a chrysalis.
